SEVERAL BLOODY FIGHTS AFTER THE DOUGHERTY-WONGO MILL.

The Referees and Others Have "Scrap ping" Matches-The Secretary of the

Navy Gives the Politicians a Set-Back.

[Correspondence of the Richmond Dispatch.] Nonrolk, July 22. Considerable feeling grew out of the prize-fight yesterday be-Quite a bloody fracas occurred on Main street and Wash. Capps, who was beaten, had his nose broken and head painfully cut. Warrants were issued and Police-Jus tice East will have a number of parties be fore him. Constable Oliver, of Princess Anne, who with his posse was driven off th battle-ground, has sworn out warrants against the puglists and various of their backers for violating the peace and digni-ty of the Commonwealth. OTHER SCHAPS.

Several fights are said to have taken place on the grounds. The conduct of the crowd and the farcical character of the mill was the talk of the town yesterday. Even the reteres had a fight, with several minor scraps. It is said that not less than \$2,000 changed hands on the result. Wongo the Indian, who won, is travelling with a tent-show now exhibiting in Portsmouth.

The action of the Secretary of the Navy in throwing overboard Odend'hal as master plumber of the yard is rather a set-back to the prominent Republicans hereabouts. They arrayed all their influence before the Secretary to have Odend'hal retained, as he was ex-Congressian Bowden's appointee and put in position because of his ability as a workman. Naval-Constructor Bowles demands that master workmen and other mechanics in his department entrasted with important workshall know their business, as in the construction of the Texas and Raleigh his reputation professionally is involved.

Preparations for the Coming Sessions o the College and Theological Seminary. Correspondence of the Richmond Dispatch.

(Correspondence of the Richmond Dispatch.)

Hampien. Sidner, Va., July 21.—The ever wide-awake Dispatch has in the last few days contained a record both of joy and sorrow as coming from this "Hill." The first was the marriage of Miss Ruth Smith to Rev. A. I. McKelway. The happy couple are now on their wedding trap northward. The "Sweet Singer in Israel" will be greatly missed from our midst. The reference of sorrow which was made was to the death of Miss Georgie Peck, who had been a patient sufferer for several years. Loving and devout frenchs carried her to her burial on Sabbath morning after a short and simple service at the residence at 10 o'clock by the pastor of College

TRIBUTE TO MISS PECK.

The slow and steady march to the grave, however, was a triumphal procession, for, as in the days of the old Prophet Amos, He who "maketh the Seven Stars and Orion had turned the shadow of death into the morning." Her friends felt in following her body to the burial that, according to the creed in which she had been reared, she was holding communion in glory with Christ. For that creed teaches that "the communion in glory with Christ. For that creed teaches that "the communion in glory with Christ the members of the invisible Church enjoy immediately after death is in that their souls are then leade perfect in holiness and received into the highest heavens, where they behold the face of God in little and glory, waiting for the full redemption of their bodies, which even in death continue united to Carist and rest in their graves as in their beds till at the last day they be again united to their souls."

So the bridal and the burial have in less than a week removed from our daily companionship those we loved and honored.

coming sessions.

A large part of our vacation has already gone, and there are notes of preparation for the coming sessions of college and seminary. Several houses are in progress for new occupants and are expected to be opened by September. The new dormitories for the seminary have been begun and will be pressed as rapidly as possible to completion. All students who expect to enter the theological department will find preparation to accommodate them. Fourteen or fifteen new students have written positively that they were coming; six or eight others have written for information desirable for new students. With these and others heard of, but who have not yet written, it is hoped that the session will open with all but one of the last junior and middle classes and with a large new class for the coming year.

THE FROFESSORS. THE PROPESSORS.

THE PROFESSORS.

Dr. Peck and Dr. Johnston, the new professors of the Stuart Robinson chair, are present. Dr. Latimer will return here within ten days and with improved health expects to take charge again of his chair. Dr. Moore, after reasting strong allurements from other institutions, expects to be promptly in hisplace, and Dr. Hersman, who is Dr. Alexander's successor, will be here in the month of August to prepare for entrance on his work. And so we are in high hopes of having a full and prosperous session for 1891–392.

Professor Thornton has just been surveying a portion of the seminary land that is beautifully situated for building lots and before long, when these building lots are laid off, it is hoped we may have quite a village of cultivated and intelligent inhabitants, such as love to gather around institutions of learning. We are not seeking to stir up a modern boom, but such as value educational advantages will be most cordially welcomed.

REVISITING WAR SCENES.

Twenty-two members of the Lark Camping Club, of Columbia, Pa., are encamped in tents on the farm of Mr. John J. Cocke, in Prince George county, near this city. While most of them were in the Federal army during the late war they are not members of the Grand Army of the Republic, and their club is altogether a social organization. They will remain in camp here until July 31st, when they will return home. Their object is to visat the lattle fields around Petersburg. They are a fine set of men, and are receiving a great ited of attention. They camped last sum-

mer near Fredericksburg, and make a dif-ferent selection every year.

A GREAT BAPTIST MEETING. Visiting Brethren from All Over the State at Crewe-A Happy Hit.

nondence of the Richmond Dispa annual session in this rising young town, and crowds such as Crewe has never before tknown are gathered here—visiting brethren from every section of the State. Rev. A. E. Owen, D. D., preached a capital sermon last night, and while I write Professor Boatwright is pleading for Richmond College, which he is very ably representing. Rev. Dr. James, of Roanoke, pleads for his Alleghany Institute at Roanoke, and many other representatives are putting in happy hits for a dozen or more academies and matitutes, and they are all greeted by immense audiences.

He said: "We need to have more business principle in our church life. Put men to raising money who have something of snap and push. Don't put a slow brother to collecting funds. If so you will fail. The best organized Eaptist church in existence is the Second Baptist church in existence is the Second Baptist church in kichmond. It puts the right man in charge of each of its committees, and it puts women, too, on their committees.

"When a good woman comes begging for her Master von have to hear her and to re-spond generously. No man will dare to put a good woman off with a three-cent piece, as you might do if it were a man that was begging of you." Some brother asked, "What can a church do that is in debt?" He replied: "My church, the Grove-Avenue, carries a large debt; but, while cutting it down, we are giving more than ever to each of the boards." He ap-pealed most tenderly to pastors and laypealed most tenderly to pastors and lac-men to work up the finances of their churches with more system and efficiency and with powerful effect. Then he turned with a few sharp-cut sentences to the great Ministers-Relief Agency, which under his efficient greancy, has grown into a great

The league was organized, with J. C.

Pritchard as president: F. T. Walser, accretary, and a list of vice-presidents—one from each of the nine congressional districts. The by-laws of the National Protective League, with requisite modifications, were adopted. PROTECTIVE POLICY.

The resolutions recite the great prosperity of the manufacturing States and attribute it to a protective pointy; declare the delight of the convention at the sentiment friendly to the protective system, which within the last few years has taken hold on the minds of many people in North Carolina; endorse the recent tariff legislation of Congress and the McKimley act, which, if properly managed, will greatly aid in developing the natural resources of North Carolina, and directs the organization of local protective tariff associations in every voting-precinct throughout the State.

The NEGRO NOT WANTED.

At least two occasions were offered to show the temper of the convention toward the "colored brother," and it was evident his aid in the affairs of the league was not desired. This is in line with President Prichard's published declaration of several months ago in favor of running the Republican party of the State on a white basis with protective tariff as the leading

TERMINAL AND OTHER R. R. NOTES. [New York World.]

(New York World.)

The constant reports about the passing of the dividend on the East Tennessee. Virginia and Georgia first preferred stock are pronounced by the officials of that company as exceedingly premature in their character, to say the least. President Inman, of the Richmond Terminal Company, of which the East Tennessee is an important part, said yesterday: "It is true that the earnings of the East Tennessee fell off to some exteat in May and sine, owing to the unsatisfactory condition of the mining and iron interests along the line of the road, but a great change has taken place during the last three weeks, and the earnings have increased materially. The dividend is not due until November, and there is ample time between now and then to make up for any deficiency that the first six weeks may have shown. The subject of the dividend is so far in the future that it has not been considered, or so far as I know even spoken of far in the future that it has not been considered, or so far as I know even spoken of by the directors. It will make no difference to the Richmond Terminal if the East Tennessee did pass the dividend on the first preferred, however, or for that matter several dividends, because the Richmond Terminal is amply provided with funds to meet its obligations for some time to come."

The Richmond Terminal people have been endeavoring for some time to ferret out the source of the malicious reports concerning the company that have been current. Among these reports was one that the company had tried to berrow money in Philadelphia and had been refused. They traced the report to a certain prominent broker on Wall street, who was

What is Scrofula

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing bilindness or deafness; which its the origin of pimples, cancerous growths, or many other manifestations usually ascribed to "humors." It is a more formidable enemy than consumption or cancer alone, for serofula combines the worst possible features of both. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How can it be cured? By taking Hood's Sarsaparilla, which, by the cures it has accomplished, often when other medicines have falled, has proven itself to be a potent and peculiar medicine for this disease. For all affections of the blood Hood's Sarsaparilla is unequalled, and some of the cures it has effected are really wonderful. If you suffer from scrotula in any of its various forms, be sure to give Hood's Sarsaparilla a trial.
